Governance, risk, and security compliance practitioner translating controls into engineering. My background spans governance, compliance and automating evidence collection, continuous monitoring, and compliance-as-code workflows, replacing manual processes with repeatable, scriptable, and auditor-ready outputs.

CORE COMPETENCE

Frameworks: ISO 27001, SOC 2, ISO 27701, ISO 42001, NIST 800-53, NIST CSF, FedRAMP, CJIS

Operations: SOP development, audit readiness, evidence collection, access reviews, security awareness development, risk

Cloud & Infrastructure: AWS, Azure, GCP

PROFESSIONAL EXPERIENCE

Senior GRC Engineer | Clario, part of Thermo Fisher Scientific

2023 - Present

- Develop and refine governance, risk, and compliance policies mapped to ISO 27001, ISO 27701, ISO 42001, SOC 2 and other regulatory frameworks.
- Design, build, and maintain a comprehensive GRC framework, leveraging industry standards such as ISO 27001, ISO 27701, and ISO 42001 to inform governance strategy and control implementation.
- Drive adoption of compliance-as-code and policy-as-code practices to reduce audit burden and automate evidence collection.
- Built a GRC data warehouse that continuously evaluate controls with easily digestible dynamic dashboard for real-time compliance visibility.

Auditor | Insight Assurance

2023

- Perform the day-to-day activities of IT audit engagements (SOC 1, SOC 2, ISO27001, ISO 27701, HIPAA, PCI DSS), and readiness assessments under the direction of a member of the management team.
- Evaluate the design and effectiveness of technology controls. Identify and communicate IT audit findings to management.

Senior GRC Specialist | The NPD Group

2021 - 2022

- Developed scalable risk management processes, utilize a comprehensive risk assessment, while developing an effective risk treatment and establish a robust control mitigation plan.
- Deployed encryption
- Designed, built, and maintained a comprehensive GRC framework, leveraging industry standards such as NIST 800-53, ISO 27001, ISO 27701, and SOC 2 to inform governance strategy and control implementation.
- Maintain and improve security risk register.

Information Security Analyst | SkyTech Consulting

2018 - 2021

- Govern and monitor the IT security posture of network enclaves, unclassified and classified, as well as provide authority on Cybersecurity policies.
- Expertly identify and manage FedRAMP Boundary components across multiple customer deployments, ensuring strict adherence to federal compliance requirements.

EDUCATION

Master of Science, Mathematics, University of Texas, El Paso, TX

Graduate Certificate, Big Data Analytics, University of Texas, El Paso, TX

CERTIFICATION

CISM, CISA, ISO 27001 Lead Auditor/Implementer, ISO 42001 Lead Auditor, CCSK, Microsoft SC-900, Microsoft AZ-900
